The purpose of this filing is to update and to extend our Gamma service area boundary to include two new areas. The areas are identified as follows:

- (1) North Grove Subdivision
- (2) Gamma Heights Subdivision

North Grove is an existing residential area with individual private wells that do not meet State water quality standards. The State Department of Health Services has advanced the cost of extending Regulated Water Company's lines to this area to make a safe water supply available. A full description of these new facilities is contained in the Workpapers.

Gamma Heights Subdivision has received final approval from the local permitting agency and is presently under construction. The developer of Gamma Heights has requested service and entered into a main extension agreement. The Water Supply Questionnaire (Number) was approved by the CPUC on \_\_\_\_\_.

Regulated Water Company is installing all facilities. (or) The developer has completed installation of all facilities, and Regulated Water Company has inspected and accepted them.

This filing will not interfere with the operation of Regulated's other public utility or the water system of a public agency.
